### Wabi: A Hero's Tale By Joseph Bruchac

Wabi was born an owl—a great horned owl who grew to become such a strong, confident creature that he was afraid of nothing. But now he *is* afraid. He fears that he might never win the heart of the girl he loves. Somehow, despite his own intentions, he has fallen in love with a girl—a beautiful, headstrong human girl. And so he begins the adventure of his life. He shape-shifts into human form in order to be with her. But before he can win her love, he must face an even greater challenge in a land he comes to think of as the Valley of Monsters.

## Editorial Review

From School Library Journal

Grade 5-8-Wabi is an odd owl. For starters, he grows bigger than most horned owls do. Then he realizes he can talk to and understand other creatures. He adopts a wolf pup that becomes a loyal friend and he falls in love with a girl from the nearby Abenaki village that he protects from evil creatures. When his great-grandmother tells him that he has ancestors who were humans who shape-changed to owls, Wabi decides to become human so he can win Dojihla's heart. When his owl-tufted ears give him away, he leaves the village. On his quest to discover his true self, he encounters several nonhuman monsters; rescues a wolf pack from Oldold Woman, who is keeping them captive; and discovers his own true self. Wabi's inquisitive and endearing personality will charm readers. Even when in human form, he thinks and acts like an owl and finds joy and pleasure when his human body can do something he didn't expect, such as kick very hard. His grandmother embodies the adage of wise old owls, dispensing advice and assistance in equal measures but never too much of either at any one time, and readers can see why Wabi falls in love with Dojihla, even if the other young men find her abrasive and compare her to a bobcat. They just haven't watched her as much or as carefully as Wabi has. Give this novel to readers who aren't quite ready for David Clement-Davies's *Fire Bringer* (2000) or *The Sight* (2002, both Dutton) or to anyone who enjoys reading about journeys of self-discovery.-Lisa Prolman, *Greenfield Public Library, MA*

Gr. 7-10. *Wabi* means white. Wabi's great-grandmother Owl gives him the name because of his pale feathers, and the two owls share a great bond: both understand and speak the language of humans. Wabi grows strong, and like male adolescents of many species, he is proud and not a little cocky. But he falls in love with a human Abenaki girl, Dojihla, as headstrong and confident as himself. Bruchac does a grand job of capturing the sweet swagger of Wabi as an owl and, later, after he is transformed into a boy, tucking in bits from a number of animal and monster tales. Wabi finds a wolf companion, learns to work his human body, and discovers ways to protect his environment and, eventually, Dojihla's people. Wolf, girl, and boy save each other in the end, and great-grandmother has a key role, too. Readers may be reminded of Nawat, the crow boy in Tamora Pierce's *Trickster's Queen*; this shape-shifter tale is very different, but it may appeal to the same audience. *GraceAnne DeCandido*
