**The Analytical Chemistry of Cannabis: Quality Assessment, Assurance, and Regulation of Medicinal Marijuana and Cannabinoid Preparations (Emerging Issues in Analytical Chemistry)** By Brian F Thomas, Mahmoud ElSohly

A volume in the *Emerging Issues in Analytical Chemistry* series, *The Analytical Chemistry of Cannabis: Quality Assessment, Assurance, and Regulation of Medicinal Marijuana and Cannabinoid Preparations* provides analytical chemistry methods that address the latest issues surrounding cannabis-based products. The plethora of marketed strains of cannabis and cannabinoid-containing products, combined with the lack of industry standards and labelling requirements, adds to the general perception of poor quality control and limited product oversight. The methods described in this leading-edge volume help to support the manufacturing, labelling, and distribution of safe and consistent products with known chemical content and demonstrated performance characteristics. It treats analytical chemistry within the context of the diverse issues surrounding medicinal and recreational cannabis in a manner designed to foster understanding and rational perspective in non-scientist stakeholders as well as scientists who are concerned with bringing a necessary degree of order to a field now characterized by confusion and contradiction.

The *Emerging Issues in Analytical Chemistry* series is published in partnership with RTI International and edited by Brian F. Thomas. Please be sure to check out our other featured volumes:

- Hackney, Anthony C. *Exercise, Sport, and Bioanalytical Chemistry: Principles and Practice*, 9780128092064, March 2016.
- Tanna, Sangeeta and Lawson, Graham. *Analytical Chemistry for Assessing Medication Adherence*, 9780128054635, April 2016.
- Rao, Vikram, Knight, Rob, and Stoner, Brian. *Sustainable Shale Oil and Gas: Analytical Chemistry, Biochemistry, and Geochemistry Methods*,

9780128103890, forthcoming September 2016.

- Farsalinos, Konstantinos, et al. *Analytical Assessment of e-Cigarettes: From Contents to Chemical and Particle Exposure Profiles*, 9780128112410, forthcoming November 2016.

- Addresses current and emerging analytical chemistry methods?an approach that is unique among the literature on this topic
- Presents information from a broad perspective of the issues in a single compact volume
- Employs language comprehensible to non-technical stakeholders as well as to specialists in analytical chemistry

## **Editorial Review**

### **About the Author**

Brian F. Thomas, PhD, is Principal Scientist, Analytical Chemistry and Pharmaceutics, at RTI International, NC, USA. He has more than 20 years of experience in analytical chemistry and mass spectrometry. He is the principal investigator/co-principal investigator on two National Institute on Drug Abuse repository and purity specification contracts. His principal duties include overseeing the development of chromatographic assays and spectrophotometric assays for the qualitative and quantitative analysis of bulk chemicals or chemicals in dosage formulations, biological fluids, tissues, or other complex matrices. Dr. Thomas was recently awarded RTI's President's Award for his scientific contributions to the institute.

Mahmoud A. ElSohly, PhD, is the director of the Marijuana Project at the University of Mississippi, which is funded by the National Institute on Drug Abuse. He holds more than 30 patents dealing with the processing, testing, and detection of drugs of abuse along with other patents dealing with biologically active natural products and compositions for the treatment of cancer and other in the diagnostics area. He has authored over 250 scholarly articles and more than 200 presentations at scientific meetings of professional societies relative to drug discovery, analysis, and metabolism. He is a member of many scholarly scientific societies and was recognized by The Scientist (April 17, 1995) and Science Watch (January, 1995) as the second most cited author in forensic sciences in the world for the period 1981-1993. Dr. ElSohly is also recognized in the Journal of Analytical Toxicology (October issue, 2004) as being one of the top ten (3rd and 4th) Most Cited Authors and Most Prolific Authors in the journal between 1981 and 2003.

## **Users Review**

### **From reader reviews:**

#### **Marie Boyd:**

Why don't make it to be your habit? Right now, try to ready your time to do the important work, like looking for your favorite e-book and reading a publication. Beside you can solve your problem; you can add your knowledge by the publication entitled The Analytical Chemistry of Cannabis: Quality Assessment, Assurance, and Regulation of Medicinal Marijuana and Cannabinoid Preparations (Emerging Issues in Analytical Chemistry). Try to stumble through book The Analytical Chemistry of Cannabis: Quality Assessment, Assurance, and Regulation of Medicinal Marijuana and Cannabinoid Preparations (Emerging Issues in Analytical Chemistry) as your close friend. It means that it can be your friend when you really feel alone and beside those of course make you smarter than ever. Yeah, it is very fortunate for you. The book makes you a lot more confidence because you can know anything by the book. So, we should make new experience along with knowledge with this book.

#### **Nicolas Jones:**

This book entitled The Analytical Chemistry of Cannabis: Quality Assessment, Assurance, and Regulation of Medicinal Marijuana and Cannabinoid Preparations (Emerging Issues in Analytical Chemistry) to be one of several books this best seller in this year, this is because when you read this guide you can get a lot of

benefit on it. You will easily to buy this particular book in the book retailer or you can order it by way of online. The publisher in this book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Mobile phone. So there is no reason to you personally to past this reserve from your list.

**Angeline Allison:**

Do you have something that that suits you such as book? The e-book lovers usually prefer to select book like comic, small story and the biggest one is novel. Now, why not seeking The Analytical Chemistry of Cannabis: Quality Assessment, Assurance, and Regulation of Medicinal Marijuana and Cannabinoid Preparations (Emerging Issues in Analytical Chemistry) that give your pleasure preference will be satisfied by means of reading this book. Reading practice all over the world can be said as the opportunity for people to know world far better then how they react toward the world. It can't be mentioned constantly that reading practice only for the geeky man or woman but for all of you who wants to be success person. So , for every you who want to start looking at as your good habit, you may pick The Analytical Chemistry of Cannabis: Quality Assessment, Assurance, and Regulation of Medicinal Marijuana and Cannabinoid Preparations (Emerging Issues in Analytical Chemistry) become your personal starter.

**Justin Belz:**

That book can make you to feel relax. This specific book The Analytical Chemistry of Cannabis: Quality Assessment, Assurance, and Regulation of Medicinal Marijuana and Cannabinoid Preparations (Emerging Issues in Analytical Chemistry) was multi-colored and of course has pictures on there. As we know that book The Analytical Chemistry of Cannabis: Quality Assessment, Assurance, and Regulation of Medicinal Marijuana and Cannabinoid Preparations (Emerging Issues in Analytical Chemistry) has many kinds or style. Start from kids until teenagers. For example Naruto or Investigation company Conan you can read and think you are the character on there. Therefore not at all of book tend to be make you bored, any it offers you feel happy, fun and relax. Try to choose the best book for you and try to like reading that will.
