### Editorial Review

#### Review

"Harding's work on standpoint theory has been groundbreaking."

-Alison Jagger, author of "Living with Contradictions: Controversies in Feminist Social Ethics

"Standpoint theory has a very wide impact, from the humanities to the natural sciences. In bringing together a variety of standpoint literatures and demonstrating how important these lines of thought have become, this is a very strong collection."

-Nancy Harstock, Professor of Political Science, University of Washington

"An essential resource for feminist theorists, researchers, women's studies students, and activists alike. This excellent anthology offers a rich interdisciplinary assessment of the impact of feminist standpoint theory in diverse fields and includes responses to postmodern and postcolonial challenges to standpoint epistemology."

-Nancy A. Naples, author of "Feminism and Method

"I can think of no other volume that covers this important area in feminist philosophy so well. It brings together the classics of the past with the best of the present. This is the place to go for standpoint theory."

-Linda Nicholson, author of "The Play of Reason: From the Modern to the Postmodern

""The Feminist Standpoint Theory Reader tracks, translates and augments several decades of classics and abundant contributions to what is perhaps the most significant theoretical discourse developed by interdisciplinary feminist theory."

-Judith Stacey is the author of "Brave New Families: Stories of Domestic Upheaval in Late-Twentieth-Century America

#### About the Author

**Sandra Harding** is Professor of Education and Women's Studies at the University of California, Los Angeles, and is currently the co-editor of *Signs*. Her work has won the Jessie Bernard Award from the American Sociological Association, the Critics Choice Award from AERA, and the *Choice* Outstanding Book Award. A pioneer in the development of Standpoint Theory, she is the author of numerous books, including *The Science Question in Feminism* and *The "Racial" Economy of Science*.

### Users Review

#### From reader reviews:

##### **Richard Simpson:**

Book is definitely written, printed, or created for everything. You can learn everything you want by a book. Book has a different type. As you may know that book is important factor to bring us around the world. Adjacent to that you can your reading talent was fluently.
