The Orange Girl By Jostein Gaarder

At fifteen, Georg comes upon a letter written to him by his dying father, to be read when he comes of age. Their two voices make a fascinating dialogue as Georg comes to know the father he can barely remember, then is challenged by him to answer some profound questions. Editorial Review

From School Library Journal

Grade 6-9 - The Norwegian author of *Sophie's World* (Penguin, 1996) and other chewy tales pops a Big Question here, but the leisurely way he prepares readers for it may lose most of them. Fifteen-year-old Georg is stunned to receive a long-hidden letter from his father, who died of cancer 11 years previously. It's a loving, romantic missive to the future, in which his dad not only describes how he met and fell utterly in love with Georg's mother, but also lyrically expresses an intense appreciation for the universe's wonders: common oranges, distant stars, the "great fairytale" in which he feels himself to be living, and, most especially, little Georg. Already knowing that he's about to die, at last he asks whether it would have been better to have spared himself the pain of losing it all so soon by never having lived - a question he invites his son (and readers) to consider, too. As he reads, Georg intersperses reactions and remarks about his own life, deliberately creating a collaborative story that draws together previously unsuspected connections with his barely remembered parent. He closes with his Answer; readers who get that far will be left to mull over their own. - *John Peters, New York Public Library*
