My First Book of Science Experiments By Thomas Canavan

Learn about magnetism with a magnet maze, discover how tall you are using your own feet, and find out about color mixing with jelly! Jam-packed with fun and exciting experiments, which can easily be performed at home, this book is the perfect introduction to science for inquisitive readers age 5 and up. The book attempts to reinforce school learning?the experiments tie in with areas of science that children will be encountering in the classroom for the first time. Children will love the book because it is hands-on and entertaining, and parents will love the book, too, because of its educational value. All of the experiments can be safely performed with readily available household items. Because of the fun and appealing design, kids will want to dive in straight away!
