**Quinoxalines: Supplement II (Chemistry of Heterocyclic Compounds: A Series Of Monographs)** By Desmond J. Brown, Edward C. Taylor, Jonathan A. Ellman

This volume in the Chemistry of Heterocyclic Compounds series presents a comprehensive review of the quinoxaline literature from 1975 to the present (2002), updating Volumes 5 and 35. It provides an alphabetical table of known simple quinoxalines, including new compounds discussed in this volume and their physical data, as well as the pyrazines from the original volumes. Biological activities, spectral or other physical studies, and other such materials appear at appropriate points in the text. The in-depth coverage includes synthesis, reactions, spectroscopic, and physical properties for each class of compounds.

Chemistry of Heterocyclic Compounds, Volume 61: Supplement II provides the most up-to-date summation of knowledge of the synthetic chemistry of quinoxalines.

## **Editorial Review**

### **Review**

"This book updates Volumes 5 and 35 of this series on quinoxalines and covers the literature on quinoxalines from approximately 1976-2002." (*Journal of the American Chemical Society*, June 9, 2004)

## **Users Review**

### **From reader reviews:**

#### **Frances Small:**

Here thing why this particular Quinoxalines: Supplement II (Chemistry of Heterocyclic Compounds: A Series Of Monographs) are different and reputable to be yours. First of all looking at a book is good but it really depends in the content of the usb ports which is the content is as delicious as food or not.

Quinoxalines: Supplement II (Chemistry of Heterocyclic Compounds: A Series Of Monographs) giving you information deeper as different ways, you can find any reserve out there but there is no guide that similar with Quinoxalines: Supplement II (Chemistry of Heterocyclic Compounds: A Series Of Monographs). It gives you thrill reading through journey, its open up your own eyes about the thing that happened in the world which is might be can be happened around you. It is easy to bring everywhere like in area, café, or even in your approach home by train. Should you be having difficulties in bringing the paper book maybe the form of Quinoxalines: Supplement II (Chemistry of Heterocyclic Compounds: A Series Of Monographs) in e-book can be your choice.

#### **Thomas Baldwin:**

People live in this new day of lifestyle always try to and must have the free time or they will get lot of stress from both daily life and work. So , whenever we ask do people have free time, we will say absolutely of course. People is human not really a huge robot.
