**Greek to Latin: Frameworks and Contexts for Intertextuality** By G. O. Hutchinson

The relationship between Latin and Greek literature is one of the most fundamental questions for Latin literature, and for those who study the reception of ancient Greek, and this innovative volume shows some of the contexts in which the interaction of the literatures should be viewed.

Hutchinson investigates Roman conceptions of their own literary history and Greek literary history as two chronological sequences, artificially separated, and takes the reader around the Mediterranean to see the different places where Romans encountered Greek art with words. The volume looks at Roman perceptions of the contrasting Greek and Latin languages and compares in detail Latin adaptation of Greek writing with Latin adaptation of Latin, and views the different approaches to Greek material, ideas, and works between three prose 'super-genres', and within the poetic 'super-genre' of hexameters. Based on an independent collection of evidence, it draws extensively on inscriptions, archaeology, papyri, scholia, and little-known texts.

### Editorial Review

#### Review

Has a magisterial sweep \* C. McDonald, *Journal of Classics Teaching* \* Spectacular ... magnificent \* Tom Geue, *Acta Classica* \* It is impossible not to be struck by the bibliographical richness of this volume ... It opens many new lines of thought and prospects for research. \* Alessia Cosenza, *Bollettino di Studi Latini* \* Hutchinson has produced yet another stimulating, learned, and indispensable monograph on a topic that has remained largely marginalized in Classical scholarship, the relationship between Latin and Greek literature ... A plethora of literary sources, as well as epigraphic materials, will be particularly useful to graduate students studying the history of Latin literature. Hutchinson offers an innovative, comprehensive overview and detailed survey beyond the confines of well-known handbooks. \* Antony Augoustakis, *Classical Journal* \* There are few better places to turn for sociological data about literary production during the period ... Each section synthesizes a vast array of evidence in varying scales and perspectives ... To move even briefly in Hutchinson's plenum of knowledge is a humbling experience. \* Adam Gitner, *Bryn Mawr Classical Review* \*

#### About the Author

**Gregory Hutchinson** is Professor of Greek and Latin Languages and Literature at the University of Oxford.

### Users Review

#### From reader reviews:

##### Charles Baker:
