Editorial Review

From [Booklist](#)

Defined here are 1,000 terms used within the current mainstream of grammar, as well as within the related fields of phonetics and semantics, generative grammar, and linguistics. Examples of terms include *fricative*, *linking verb*, *participial adjective*, and *pluperfect*.

Entries provide cross-references to synonyms (with the definition placed following the preferred term), indications of terms that enjoy a contrastive relationship, and cross-references to related and overlapping words. Entries include part-of-speech labels and illustrative quotations (sometimes with an indication of a phrase's earliest recorded appearance). The definitions constitute an interesting combination of telegraphic writing style (for the formal definition of a word) and narrative writing style (for explanations of the formal definition). Where British and American English differ, explanations for both are provided. For example, the definition for *present perfect* explains that American English often uses simple past, while British English prefers present perfect.

This is a remarkable resource. It is not a usage dictionary, but its definitions of grammar terms include usage information. The illustrative quotations are superb at facilitating understanding of complicated concepts; the format is unusually clear; and everything seems to be included, from A ("adverbial as an element of clause structure") to Z ("any of the functional parts into which clause and sentence structure is analysed"). This book will be used often by teachers, students (high school through college), writers, and of course, students of grammar. It is highly recommended for purchase by public and academic libraries; school librarians will want to preview before making a purchasing decision.

Review

"This is a remarkable resource....The illustrative quotations are superb at facilitating understanding of complicated concepts....The book will be used often by teachers, students...writers, and of course, students of grammar."--*Booklist*

"It is a needed, welcome tool for students of the sophisticated science of language and its structure."--*Wilson Library Bulletin*

About the Author

Edmund Weiner is co-editor of the *OED*, Second Edition, and author (with Andrew Delahunty) of the *Oxford Guide to English Usage*. Sylvia Chalker is the author of *Current English Grammar*, and a contributor to the *Oxford Companion to the English Language*.

Users Review

From reader reviews:

Charlotte Hawley:

Do you among people who can't read pleasant if the sentence chained inside the straightway, hold on guys this kind of aren't like that. This The Oxford Dictionary of English Grammar book is readable simply by you who hate those perfect word style. You will find the info here are arrange for enjoyable examining experience without leaving actually decrease the knowledge that want to offer to you. The writer connected with The Oxford Dictionary of English Grammar content conveys the thought easily to understand by many people. The printed and e-book are not different in the content material but it just different available as it. So , do you still thinking The Oxford Dictionary of English Grammar is not loveable to be your top collection reading book?

Dennis Byrd:

People live in this new day time of lifestyle always attempt to and must have the spare time or they will get great deal of stress from both everyday life and work. So , when we ask do people have time, we will say absolutely without a doubt. People is human not only a robot. Then we request again, what kind of activity have you got when the spare time coming to anyone of course your answer will probably unlimited right. Then ever try this one, reading textbooks. It can be your alternative within spending your spare time, the particular book you have read will be The Oxford Dictionary of English Grammar.

Emery Flores:

In this time globalization it is important to someone to obtain information. The information will make someone to understand the condition of the world. The condition of the world makes the information better to share. You can find a lot of personal references to get information example: internet, paper, book, and soon. You will observe that now, a lot of publisher that print many kinds of book. The actual book that recommended to you personally is The Oxford Dictionary of English Grammar this book consist a lot of the information from the condition of this world now. This particular book was represented how do the world has grown up. The terminology styles that writer make usage of to explain it is easy to understand. Often the writer made some research when he makes this book. That's why this book ideal all of you.

Harry Alvey:

Do you like reading a book? Confuse to looking for your selected book? Or your book seemed to be rare? Why so many question for the book? But almost any people feel that they enjoy to get reading. Some people likes examining, not only science book and also novel and The Oxford Dictionary of English Grammar or perhaps others sources were given understanding for you. After you know how the great a book, you feel wish to read more and more. Science book was created for teacher or perhaps students especially. Those textbooks are helping them to include their knowledge. In other case, beside science reserve, any other book likes The Oxford Dictionary of English Grammar to make your spare time a lot more colorful. Many types of book like here.
