Handbook of Approximation Algorithms and Metaheuristics (Chapman & Hall/CRC Computer and Information Science Series) (Volume 1) From Chapman and Hall/CRC

Delineating the tremendous growth in this area, the Handbook of Approximation Algorithms and Metaheuristics covers fundamental, theoretical topics as well as advanced, practical applications. It is the first book to comprehensively study both approximation algorithms and metaheuristics.

Starting with basic approaches, the handbook presents the methodologies to design and analyze efficient approximation algorithms for a large class of problems, and to establish inapproximability results for another class of problems. It also discusses local search, neural networks, and metaheuristics, as well as multiobjective problems, sensitivity analysis, and stability. After laying this foundation, the book applies the methodologies to classical problems in combinatorial optimization, computational geometry, and graph problems. In addition, it explores large-scale and emerging applications in networks, bioinformatics, VLSI, game theory, and data analysis.

Undoubtedly sparking further developments in the field, this handbook provides the essential techniques to apply approximation algorithms and metaheuristics to a wide range of problems in computer science, operations research, computer engineering, and economics. Armed with this information, researchers can design and analyze efficient algorithms to generate near-optimal solutions for a wide range of computational intractable problems.

Handbook of Approximation Algorithms and Metaheuristics (Chapman & Hall/CRC Computer and Information Science Series) (Volume 1) From Chapman and Hall/CRC Bibliography

- Sales Rank: #3884539 in Books
- Published on: 2007-05-15
- Original language: English
- Number of items: 1
- Dimensions: 10.05" h x 2.29" w x 7.32" l, 5.27 pounds
- Binding: Hardcover
- 1432 pages

Editorial Review

Users Review

From reader reviews:

Danny Jarosz:

Have you spare time for any day? What do you do when you have considerably more or little spare time? Yep, you can choose the suitable activity with regard to spend your time. Any person spent their particular spare time to take a stroll, shopping, or went to typically the Mall. How about open or maybe read a book eligible Handbook of Approximation Algorithms and Metaheuristics (Chapman & Hall/CRC Computer and Information Science Series) (Volume 1)? Maybe it is to get best activity for you. You know beside you can spend your time using your favorite's book, you can better than before. Do you agree with it is opinion or you have various other opinion?

Nancy Smith:

Book is usually written, printed, or outlined for everything. You can realize everything you want by a reserve. Book has a different type. As you may know that book is important factor to bring us around the world. Adjacent to that you can your reading ability was fluently. A book Handbook of Approximation Algorithms and Metaheuristics (Chapman & Hall/CRC Computer and Information Science Series) (Volume 1) will make you to always be smarter. You can feel far more confidence if you can know about every little thing. But some of you think this open or reading any book make you bored. It is not make you fun. Why they can be thought like that? Have you seeking best book or suited book with you?

Marie Forrest:

This Handbook of Approximation Algorithms and Metaheuristics (Chapman & Hall/CRC Computer and Information Science Series) (Volume 1) are usually reliable for you who want to be considered a successful person, why. The main reason of this Handbook of Approximation Algorithms and Metaheuristics (Chapman & Hall/CRC Computer and Information Science Series) (Volume 1) can be one of many great books you must have will be giving you more than just simple reading food but feed a person with information that probably will shock your preceding knowledge. This book is definitely handy, you can bring it everywhere and whenever your conditions in e-book and printed kinds. Beside that this Handbook of Approximation Algorithms and Metaheuristics (Chapman & Hall/CRC Computer and Information Science Series) (Volume 1) giving you an enormous of experience including rich vocabulary, giving you trial run of critical thinking that we all know it useful in your day activity. So , let's have it appreciate reading.

Andrew Hulbert:

Handbook of Approximation Algorithms and Metaheuristics (Chapman & Hall/CRC Computer and Information Science Series) (Volume 1) can be one of your beginning books that are good idea. Most of us recommend that straight away because this book has good vocabulary that may increase your knowledge in vocab, easy to understand, bit entertaining but nonetheless delivering the information. The writer giving his/her effort to place every word into delight arrangement in writing Handbook of Approximation Algorithms and Metaheuristics (Chapman & Hall/CRC Computer and Information Science Series) (Volume 1) but doesn't forget the main point, giving the reader the hottest and based confirm resource data that maybe you can be certainly one of it. This great information may drawn you into new stage of crucial pondering.
