"Affluence is the experience in which our needs are easily met and our desires spontaneously fulfilled," says one of our kindest authorities on living in harmony with the universe. We can create this experience not through effort or struggle but through simply becoming aware of the intelligence that is everywhere. It's an intelligence that can transform every moment of our existence and direct us to the work and abundance we are meant to have. It's an elusive idea for Westerners but one Chopra makes exceptionally inviting. This is one of his most accessible and useful audios, brief enough for daily listening that can shift your awareness and your activities to the abundance you deserve.
