## Numerical Methods That Work By Forman S. Acton

Numerical Methods that Work, originally published in 1970, has been reissued by the MAA with a new preface and some additional problems. Acton deals with a commonsense approach to numerical algorithms for the solution of equations: algebraic, transcendental, and differential. He assumes that a computer is available for performing the bulk of the arithmetic. The book is divided into two parts, either of which could form the basis of a one-semester course in numerical methods. Part I discusses most of the standard techniques: roots of transcendental equations, roots of polynomials, eigenvalues of symmetric matrices, and so on. Part II cuts across the basic tools, stressing such commonplace problems as extrapolation, removal of singularities, and loss of significant figures. The book is written with clarity and precision, intended for practical rather than theoretical use. This book will interest mathematicians, both pure and applied, as well as any scientist or engineer working with numerical problems.

## **Editorial Review**

Review

'This is a wonderful book and I am glad it is back in print.' William Press, Harvard University

## **Users Review**

**From reader reviews:**

**Terry Kline:**

Reading can called brain hangout, why? Because when you find yourself reading a book specifically book entitled Numerical Methods That Work your brain will drift away trough every dimension, wandering in each aspect that maybe unidentified for but surely will become your mind friends. Imaging each word written in a reserve then become one type conclusion and explanation that maybe you never get before. The Numerical Methods That Work giving you yet another experience more than blown away your mind but also giving you useful information for your better life in this particular era. So now let us explain to you the relaxing pattern this is your body and mind is going to be pleased when you are finished reading through it, like winning a. Do you want to try this extraordinary investing spare time activity?

**Debra Capone:**

This Numerical Methods That Work is great publication for you because the content that is full of information for you who always deal with world and still have to make decision every minute. This book reveal it data accurately using great plan word or we can point out no rambling sentences inside. So if you are read the idea hurriedly you can have whole details in it. Doesn't mean it only provides straight forward sentences but tough core information with splendid delivering sentences. Having Numerical Methods That Work in your hand like keeping the world in your arm, information in it is not ridiculous one. We can say that no e-book that offer you world throughout ten or fifteen tiny right but this book already do that. So , this really is good reading book. Hey there Mr. and Mrs. active do you still doubt this?

**John Dame:**

On this era which is the greater individual or who has ability in doing something more are more special than other. Do you want to become certainly one of it? It is just simple solution to have that. What you have to do is just spending your time not much but quite enough to possess a look at some books. One of several books in the top listing in your reading list will be Numerical Methods That Work. This book that is qualified as The Hungry Inclines can get you closer in becoming precious person. By looking upwards and review this reserve you can get many advantages.

**Mildred Vang:**

A lot of people said that they feel uninterested when they reading a publication. They are directly felt the item when they get a half areas of the book. You can choose the actual book Numerical Methods That Work to make your own personal reading is interesting. Your own personal skill of reading ability is developing when you including reading. Try to choose straightforward book to make you enjoy to learn it and mingle the sensation about book and examining especially. It is to be first opinion for you to like to start a book and read it. Beside that the book Numerical Methods That Work can to be your brand new friend when you're feel alone and confuse in what must you're doing of that time.
