**Logic: The Question of Truth (Studies in Continental Thought)** By Martin Heidegger

Martin Heidegger's 1925–26 lectures on truth and time provided much of the basis for his momentous work, *Being and Time*. Not published until 1976 as volume 21 of the *Complete Works*, three months before Heidegger's death, this work is central to Heidegger's overall project of reinterpreting Western thought in terms of time and truth. The text shows the degree to which Aristotle underlies Heidegger's hermeneutical theory of meaning. It also contains Heidegger's first published critique of Husserl and takes major steps toward establishing the temporal bases of logic and truth. Thomas Sheehan's elegant and insightful translation offers English-speaking readers access to this fundamental text for the first time.

### **Editorial Review**

#### **Review**

"It would be difficult to overstate the scope of the impact of the English version of Heidegger's Logic. Heidegger carries out nothing short of a fundamental reinterpretation of the meaning of truth and the foundations of logic. This is a fine translation that contributes much to the overall strength of the work."  
?Theodore George, Texas A&M University

"Thomas Sheehan has produced a clear and comprehensive critical edition of Heidegger's Logic that contains a great deal more material than its German counterpart." ?Philosophy in Review

"Thomas Sheehan has here set the standard of excellence against which all future translations of Heidegger into English must be measured. At long last, the English-speaking reader is spared the unnecessary mystification of the word Dasein. Only Existenz is left untranslated. In his lectures on Holderlin's poem 'Der Ister,' read in the summer of 1942, Heidegger said to his students: 'Tell me what you think about translating and I will tell you who you are.' Professor Sheehan shows us who he is by making accessible the way of thinking of the Heidegger of Sein und Zeit." ?Review of Metaphysics

#### **About the Author**

Thomas Sheehan is Professor of Religious Studies at Stanford University.

### **Users Review**

#### **From reader reviews:**

#### **Ruth McGrath:**

In this 21st century, people become competitive in each way. By being competitive currently, people have do something to make all of them survives, being in the middle of often the crowded place and notice simply by surrounding.
