Making Sense Of Search And Seizure Law: A Fourth Amendment Handbook By Phillip A. Hubbart

Fourth Amendment law is both fascinating and inspiring — as it deals with a fundamental human right, the denial of which was one of the leading causes of the American Revolution. But this law can also be extremely confusing. Thus the reason for this book: to make sense of this subject.

In a single volume, Hubbart restates the content, organizational structure, and principled basis of Fourth Amendment law — as laid forth by numerous U.S. Supreme Court decisions on the subject — so that it is understandable and coherent.

The work concentrates on U.S. Supreme Court caselaw, relies heavily on the historical background of the Fourth Amendment upon which much of this law is based, and cites to relevant treatises and leading federal and state court decisions. It also briefly discusses the theories of constitutional construction that the Court has used in reaching its decisions.

A wide variety of professionals (such as judges, prosecutors, defense lawyers, police legal advisors, as well as teachers and students) at the law school, undergraduate, and law enforcement levels will find this book extremely useful.

From the Author

The subject of this book is the Fourth Amendment to the U.S. Constitution: the protection against unreasonable searches and seizures. The book is the labor and love of my professional life: it took me 25 years to research and write it: 1977-2003. The book contains (1) five chapters on the historical background that led to the adoption of the Fourth Amendment 1761-91; (2) one chapter on the theories of constitutional construction that the U.S. Supreme Court has used in interpreting the Fourth Amendment; and (3) ten chapters explaining the existing law on the Fourth Amendment as announced by the 403 U.S. Supreme Court decisions interpreting the Amendment. The book is lucid, coherent and reader-friendly. You don't have to be a lawyer to understand it. But it is an in-depth book. Its purpose is to make sense of this complex but vitally important subject.
