Natural Disaster and Nuclear Crisis in Japan: Response and Recovery after Japan's 3/11 (Nissan Institute/Routledge Japanese Studies) From Brand: Routledge

The March 2011 earthquake and tsunami in Japan plunged the country into a state of crisis. As the nation struggled to recover from a record breaking magnitude 9 earthquake and a tsunami that was as high as thirty-eight meters in some places, news trickled out that Fukushima had experienced meltdowns in three reactors. These tragic catastrophes claimed some 20,000 lives, initially displacing some 500,000 people and overwhelming Japan's formidable disaster preparedness.

This book brings together the analysis and insights of a group of distinguished experts on Japan to examine what happened, how various institutions and actors responded and what lessons can be drawn from Japan's disaster. The contributors, many of whom experienced the disaster first hand, assess the wide-ranging repercussions of this catastrophe and how it is already reshaping Japanese culture, politics, energy policy, and urban planning.

Editorial Review

Review

'The triple disasters of 11 March 2011 will change the face of Japan and this is the best place to understand how. This timely and excellent publication is packed with important insights into the consequences of these disasters and challenges mainstream media views and misperceptions concerning PM Kan's disaster management.' - *Sven Saaler, Sophia University in Tokyo, Japan*

"One of the most impressive and memorable features of the book edited by Kingston is its tone of immediacy: the various contributors draw on many years of scholarly insight and experience to describe events and scenarios in a style of narrative that aspires beyond common journalistic analysis." – *Keith Jackson, SOAS, University of London*

About the Author

Jeff Kingston is Professor of History and Director of Asian Studies at Temple University, Japan. He is the author of *Japan's Quiet Transformation* (2004) and *Contemporary Japan* (2011).

Users Review

From reader reviews:

Christopher Olsen:
