Principles of Human Anatomy By Gerard J. Tortora, Mark Nielsen

Principles of Human Anatomy, the market-leading text through its many editions, successfully blends visual and textual elements to illuminate the complexities of human anatomy. A host of carefully crafted pedagogical aids support both the succinctly written narrative as well as the outstanding illustration program. Applications representing a variety of clinical perspectives provide readers with both relevance and motivation. The eleventh edition of the book continues to break new ground by offering readers a glimpse into the fascinating history of how we have come to know what we do. In addition, readers are given the opportunity to explore structure from diverse perspectives, and gain insights into the vital contributions that anatomical knowledge brings to the understanding of functions, diagnosis and treatment of disease.

Editorial Review

From the Back Cover

Principles of Human Anatomy paired with WileyPLUS makes a wide variety of visual, audio, tactile, and blended resources easily accessible and provides ample opportunity to SEE, HEAR, and DO Anatomy.

Visualizing human structure has never been clearer. Beautiful new illustrations, outstanding cadaver photographs, and clear micrographs grace every page of this new edition. Visual support for study also includes animations, new cadaver videos, and the dynamic new DVD, Real Anatomy.

Recall what was said in lecture by listening to the MP3 downloads linked to key illustrations from each chapter. Build your vocabulary and learn the language of anatomy with a complete pronunciation dictionary.

Actively engage with the content and review for exams and practicals with a wealth of activities, including the all new Visual Anatomy Exercises, Practice Quizzes, Flashcards, Review Sheets linked to animations and Real Anatomy.

About the Author

Jerry Tortora is Professor of Biology Coordinator at Bergen Community College in Paramus, New Jersey, where he teaches human anatomy and physiology as well as microbiology. He received his bachelor's degree in biology from Fairleigh Dickinson University and his master's degree in science education from Montclair State College. He is a member of many professional organizations, including the Hyman Anatomy and Physiology Society (HAPS), the American Society of Microbiology (ASM), American Association for the Advancement of Science (AAAS), National Education Association (NEA), and the Metropolitan Association of College and University Biologists (MACUB).

Above all, Jerry is devoted to his students and their aspirations. In recognition of this commitment, Jerry was the recipient of MACUB's 1992 President's Memorial Award. In 1996, he received a National Institute for Staff and Organizational Development (NISOD) excellence award from the University of Texas and was selected to represent Bergen Community College in a campaign to increase awareness of the contributions of community colleges to higher education.

Jerry is the author of several best-selling science textbooks and laboratory manuals, a calling that often requires an additional 40 hours per week beyond his teaching responsibilities. Nevertheless, he still makes time for four or five weekly aerobic workouts that include biking and running. He also enjoys attending college basketball and professional hockey games and performances at the Metropolitan Opera House.

Mark Nielsen is a Professor in the Department of biology at the University of Utah and for the past twenty-one years has taught anatomy and its related subjects to over 16,000 students. In addition to teaching human anatomy in the Department of biology, he also teaches neuroanatomy, embryology, a human dissection course, a teaching human anatomy course, and assist with the comparative vertebrate morphology course. He developed the anatomy course for the physician assistant program at the University of Utah School of Medicine. He developed and continues to help maintain the anatomy and physiology program for the Utah college of Massage Therapy (presently the largest massage school in the United States) and taught his program there for twelve years during its inception and development. His graduate training is in anatomy and his anatomy expertise has a strong basis in dissection. He has prepared and participated in hundreds of dissections of both humans and other vertebrate animals. All his courses incorporate a cadaver-based

component in the training with an outstanding exposure to cadaver anatomy. He is a member of the American Association of Anatomists (AAA), the Human Anatomy and Physiology Society (HAPS), and the Anatomical Society of Great Britain and Ireland (ASGBI).

Mark has a passion for teaching anatomy and sharing his knowledge with his students. In addition to the many students he has taught, he has trained and mentored 900 students who have worked in his anatomy laboratory as teaching assistants. His concern for students and his teaching excellence have been acknowledged through numerous awards. He received the prestigious Presidential Teaching Scholar Award at the University of Utah, is a five-time recipient of the University of Utah Student Choice Award for Outstanding Teacher and Mentor, a two time winner of the Outstanding Teacher in the Physician Assistant Program, recipient of the American Massage Therapy Association Jerome Perlinski Teacher of the Year Award, and a two time recipient of Who's Who Among America's Teachers.

Users Review

From reader reviews:

Timmy Gallegos:

Why don't make it to become your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite guide and reading a book. Beside you can solve your long lasting problem; you can add your knowledge by the e-book entitled Principles of Human Anatomy. Try to face the book Principles of Human Anatomy as your friend.
