Editorial Review

Review

"...a history and a guide for the future on the beauty and meaning of experiencing a transit of Venus." -- *Astronomical Society of the Pacific*,

"...a timely book dealing with all aspects of the phenomenon..." -- *Physical Sciences Digest, February 2004*

"...a tour de force not only of the history of observing Venus but much of astronomy itself..." -- *Science Books & Films, October 2004*

"...you would be wise to read this excellent book before the events of this summer." -- *New Scientist, February 2004*

"Copious notes, a comprehensive bibliography, and a good index...a most excellent guide to a remarkable astronomical phenomenon." -- *The Observatory, October 2004*

"Highly recommended." -- *Choice, October 2004*

Users Review

From reader reviews:

Elaine Rochelle:

Information is provisions for people to get better life, information nowadays can get by anyone from everywhere. The information can be a understanding or any news even a huge concern. What people must be consider while those information which is within the former life are challenging be find than now is taking seriously which one is appropriate to believe or which one the resource are convinced. If you obtain the unstable resource then you have it as your main information you will have huge disadvantage for you. All of those possibilities will not happen with you if you take The Transits of Venus as the daily resource information.

Juan Jensen:

The Transits of Venus can be one of your nice books that are good idea. Most of us recommend that straight away because this book has good vocabulary that can increase your knowledge in language, easy to understand, bit entertaining but nonetheless delivering the information. The copy writer giving his/her effort to set every word into joy arrangement in writing The Transits of Venus but doesn't forget the main stage, giving the reader the hottest along with based confirm resource details that maybe you can be considered one of it. This great information can draw you into new stage of crucial considering.

Anita Burns:

Beside this specific The Transits of Venus in your phone, it could give you a way to get nearer to the new knowledge or data. The information and the knowledge you can get here is fresh from the oven so don't possibly be worry if you feel like an older people live in narrow commune. It is good thing to have The Transits of Venus because this book offers for your requirements readable information. Do you occasionally have book but you do not get what it's about. Oh come on, that will not end up to happen if you have this within your hand. The Enjoyable set up here cannot be questionable, such as treasuring beautiful island. Techniques you still want to miss that? Find this book as well as read it from now!

Jamila Coles:

As a scholar exactly feel bored for you to reading. If their teacher requested them to go to the library as well as to make summary for some publication, they are complained. Just small students that has reading's heart and soul or real their hobby. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that studying is not important, boring and can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this The Transits of Venus can make you really feel more interested to read.
