Editorial Review

Review

From the reviews:

"The book is focused on clinical problems; each chapter features a clinical case that reinforces the topic that is under discussion. ... It is a tool for pediatric nephrologists and pediatric critical care physicians to use in their armamentarium as they treat children with kidney problems in the intensive care setting. For fellows-in-training in both specialties, this book is a must-read The strength of this book is that its many authors are experts in both pediatric critical care and pediatric nephrology." (Timothy E. Bunchman, *The New England Journal of Medicine*, Vol. 360 (22), May, 2009)

"Renal problems in the pediatric ICU are frequent, starting with water and electrolyte balance, acid base problems, etc. In recent years issues before and after renal transplantation occur. International experts in pediatric nephrology review and discuss in 21 chapters the above and other problems such as urosepsis renal replacement therapy With many tables in color and illustrations. Each chapter includes 'core messages'. Recommended." (*Pediatric Endocrinology Reviews*, Vol. 7 (4), June, 2010)

From the Back Cover

The challenging circumstances surrounding pediatric patients in nephrology are oftentimes very different from those in adult patients, especially in the ICU. Starting with a logical approach to each individual problem as seen in the ICU, this comprehensive book covers the pathophysiology of the child, the diagnostic approach and gives valuable up-to-date treatment recommendations.

Each renal disorder and disease entity is covered with:

- An overview of the physiology and pathophysiology
- A focus on unique and frequently challenging circumstances of pediatric patients
- State-of-the-art medical management guidelines based on evidence and expert opinion

Physicians and health-care providers in all areas of care and all levels of training will find this unique book helpful. Those new to the field can use it as a beginner's guide to become familiar with certain topics, and those more advanced in their medical career will gain useful hints and find updated information on specific clinical disease entities.

Users Review

From reader reviews:

Jon Cerrone:

The book *Pediatric Nephrology in the ICU* give you a sense of feeling enjoy for your spare time. You should use to make your capable much more increase. Book can to get your best friend when you getting stress or having big problem with the subject. If you can make reading a book *Pediatric Nephrology in the ICU* to get

your habit, you can get more advantages, like add your personal capable, increase your knowledge about several or all subjects. You could know everything if you like open and read a book Pediatric Nephrology in the ICU. Kinds of book are a lot of. It means that, science reserve or encyclopedia or some others. So , how do you think about this publication?

Gregory Morrow:

People live in this new moment of lifestyle always attempt to and must have the free time or they will get wide range of stress from both way of life and work. So , whenever we ask do people have free time, we will say absolutely yes. People is human not really a robot. Then we consult again, what kind of activity are you experiencing when the spare time coming to an individual of course your answer may unlimited right. Then ever try this one, reading books. It can be your alternative within spending your spare time, often the book you have read is actually Pediatric Nephrology in the ICU.

William Johnson:

Playing with family in a park, coming to see the water world or hanging out with buddies is thing that usually you will have done when you have spare time, and then why you don't try factor that really opposite from that. 1 activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Pediatric Nephrology in the ICU, you can enjoy both. It is excellent combination right, you still desire to miss it? What kind of hang type is it? Oh occur its mind hangout folks. What? Still don't buy it, oh come on its called reading friends.

Betty Peoples:

Are you kind of active person, only have 10 or even 15 minute in your morning to upgrading your mind talent or thinking skill also analytical thinking? Then you are having problem with the book compared to can satisfy your limited time to read it because pretty much everything time you only find publication that need more time to be learn. Pediatric Nephrology in the ICU can be your answer given it can be read by you actually who have those short extra time problems.
